## Searching for a Job

The screenshot shows a search form with the following fields and values:

- Keyword or Requisition ID: [Empty text input field]
- Job Title: (All)
- Store #: (All)
- Location: (All)

A "Search" button is located at the bottom center of the form, highlighted with a red rectangular box. A mouse cursor is shown clicking on the button.

Search Jobs by using the **Job Search Form** located on the Dollar General Career site.

- **Search Filters:** Search for open positions by keywords, category, and location. (**Note:** Other filters may be available.)
- **Search Button:** Select this button to view your search results.

### Tips:

- Typically, the keyword search will search for all of the words you enter, meaning that the keyword search “graphic designer” returns results where the job contains the words “graphic” AND “designer.”
- If available, select **Current Location** for the **Location** field to view jobs near you and select your preferred zip code radius for job results.
- If Current Location is available and has been selected, your browser asks for permission for the site to access your current location. Click **Yes** if you want the site to recognize where you are located and run the search based on your location. The message varies from browser to browser.

## Navigating Job Listings

- A. **Sort Jobs:** Click column headers to sort jobs by characteristics, such as Title or City.
- B. **Page Navigation:** Navigate to a specific page by using the page dropdown or by selecting the appropriate arrow icon (if available) to move forward or backward one page.

### Tips:

- After a specific search has been run that turns up no results, you are presented with the option to subscribe for emails when new jobs that match your criteria are created.

**Job Search Agent Options**

You can save these search settings as an agent, meaning an email will be sent to you every time a new opening matches your criteria. If you would like to create an agent, please fill out the form below and click the create button.

- Candidates searching for jobs on a mobile device can take advantage of the following:

  - Jobs are easily sorted on a mobile device. Use the **Sort By...** dropdown to sort jobs by ID, Title, Posted Date, etc.
